Purchase of Interment Rights

Purchasers of interment rights acquire the right to direct the burial, inurnment, or scattering of human remains, and the installation of monuments, markers and inscriptions, subject to the conditions set out in this by-law.

In accordance with cemetery by-law, no burial, inurnment, scattering or installation of any monument, marker, inscription, or memorialization is permitted until the interment rights have been paid in full. The purchase of interment rights does not convey any ownership in any Real Estate or real property. The purchaser of interment or scattering rights must enter into a contract with the cemetery operator, providing such information as may be required by the cemetery operator for the completion of the contract and the public register. The purchaser will receive:

- a) A copy of the contract
- b) A copy of the cemetery's current by-law

- d) A copy of the The BAO's publication *A Guide to Death Care in Ontario*, also known as the "Consumer Information Guide."

The interment/scattering rights certificate will be forwarded to the person(s) listed as the interment/scattering rights holder(s) in the contract, after full payment is received.

Payment

Lots, Plots, Niches, and Scattering Rights must be paid in full at the time of purchase, unless alternate terms are agreed upon by all parties. The cost of the interment rights is set out in a price list.

Care and Maintenance Fund Contributions

As required by Sections 166 and 168 of Regulation 30/11, a minimum prescribed amount or a percentage of the purchase price (whichever is greater) of all interment and scattering rights and a prescribed amount for monuments and markers is to be contributed into the "Care and Maintenance Fund". Interest income from this fund is to be used only to provide general care and maintenance of the cemetery. Contributions to the care and maintenance fund are not refundable except when the interment rights are cancelled within the thirty (30) day cooling off period.

Cancellation of Interment Rights within 30-day Cooling-Off period

A purchaser has the right to cancel an interment rights contract within thirty (30) days of signing the interment or scattering rights contract, by providing written notice of the cancellation to the cemetery operator. The cemetery operator will refund all monies paid by the purchaser within thirty (30) days from the request of cancellation. If any portion of the interment rights has been exercised, the purchaser or the interment rights holder(s), are not entitled to cancel the contract or re-sell the interment rights.

Cancellation of Interment Rights after the 30-day Cooling-Off period

Once payment for the interment rights has been made in full, and an interment rights certificate has been issued, the interment rights holder(s), as recorded in the cemetery records, has the right to cancel the interment rights. Any cancellation of the interment right shall be in accordance with the requirements of the cemetery by-law and in keeping with the Funeral, Burial & Cremation Services Act, 2002.

The cemetery operator prohibits the resale of interment or scattering rights to a third party. If the interment rights holder wishes to cancel their interment rights contract after 30 days, the cemetery operator will refund/repurchase the interment rights at the price listed in the current Fees and Charges By-Law, less any care and maintenance contribution amount that was previously paid.

The cemetery operator reserves the right to refuse to cancel a contract for interment or scattering rights if a portion of the interment or scattering rights has been exercised (for example, one lot in a plot has been used).

Requirements for the Cancellation of Interment Rights

To cancel a contract for interment/scattering rights, the interment/scattering rights holder must provide the cemetery operator with written notice of cancellation and the interment/scattering rights certificate, which must be endorsed by the rights holder(s), transferring all rights, title and interest back to the cemetery operator. The aforementioned paperwork must be completed before the cemetery operator will reimburse the rights holder(s).

Transfer of Interment Rights

The transfer of interment rights may only be made after the interment rights have been paid for in full. Transfers must be processed through the cemetery operator and the following must be provided.

- a) The interment/scattering rights certificate endorsed with the following:

 - ii. A signed confirmation by the cemetery operator that the person transferring the rights is shown as the rights holder in the cemetery's records. Should the interment or scattering rights holder be deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act* i.e. personal representative, estate trustee (executor) or next of kin. A copy of the notarized will or other documentation may be required to ensure the person requesting the transfer is authorized to do so.

Once all required documentation and information has been received by the cemetery operator from the rights holder(s), the cemetery operator will issue a new interment or scattering rights certificate to the transferee(s), and the transferee(s) shall be considered the current interment or scattering rights holder(s) of the interment or scattering rights.

The transfer of the interment or scattering rights shall be considered final and the cemetery's Public Register will be updated.

Administration Fee for Transfer or Resale

In the case of a transfer of interment/scattering rights, an administration fee applies for the cemetery operator to issue a new rights certificate to the transferee. The fee, which is set out on the cemetery price list, is also charged for replacement of lost or damaged certificates.

The cemetery retains the right of passage over every grave so that the cemetery operations may be performed effectively.

The cemetery reserves the right to temporarily relocate a monument or marker if required to open and close a lot. The cemetery may also temporarily place the removed soil on an adjacent lot while an interment or disinterment is being carried out. The cemetery will make reasonable efforts to restore all lots after the interment or disinterment has been completed.

In some circumstances, the disinterment of human remains may be ordered by one or more public officials (e.g., Court Order, Coroner's Office etc.) and will take place without the consent of the interment rights holder(s) and/or next of kin.

The cemetery is not responsible for damage to any casket, urn, container or vault which may occur during a disinterment. Additionally, due to the length of time that a casket, urn, container or vault has been interred and the conditions to which it has been exposed, the cemetery cannot guarantee that it can retrieve the complete casket, urn, container or vault interred in the cemetery. Should a new casket, urn or container be required at the time of disinterment, it shall be at the expense of the party authorizing the disinterment. Additionally, the cemetery operator has the right to request that a licensed funeral director be present for the disinterment at the expense of the party authorizing the disinterment.

A disinterment will be scheduled at a day and time designated by the cemetery operator. The cemetery operator reserves the right to close the cemetery or the section where the disinterment is to take place. Only those persons required or permitted by the cemetery to attend a disinterment shall be allowed to enter the cemetery or the section involved during a disinterment.

If reinterment does not take place within the same lot and if existing memorialization (monument, marker, niche front or crypt front) needs to be removed, it will be at the expense of the person authorizing the disinterment.

Once a disinterment has been completed, the lot space shall be considered available to the interment rights holder for a new interment, transfer or resale in accordance with these by-laws. If the grave, niche or mausoleum space from which a disinterment has occurred, is transferred or resold, the new interment rights holder must be made aware of the previous disinterment and agree in writing to such knowledge as part of the transfer or resale agreement.

Minor scraping of the monument base of an upright monument due to grass and lawn maintenance is considered to be normal wear.

Memorials – monuments, markers, plaques etc. are owned by the interment rights holder and the cemetery operator is not responsible for their loss or deterioration. Interment right holders may wish to consider adding memorials to their own insurance coverage. Should any monument or marker present a risk to public safety because it has become unstable, the cemetery owner shall do whatever it deems necessary by way of repairing, resetting, laying down of the monument or marker or any other remedy to remove the risk.

The cemetery operator reserves the right to remove at its sole discretion any marker, monument or inscription which is not in keeping with the dignity and decorum of the cemetery.
